

## MATERIALS

# Jurono materials for internal review.

For law firms that want a structured review of product scope, migration, data protection, and rollout before booking a demo.

---

## What this packet covers

---

This materials page is designed to speed up internal alignment across firm leadership, operations, IT, and compliance.

- Product overview focused on intake, matter flow, and team execution

- Migration and rollout approach for active law-firm operations
- Security and GDPR foundations for early due diligence
- Pricing context for planning and budget decisions

## Recommended review order

---

**Clarify product fit** via Features and Comparison

**Evaluate rollout path** via White-Glove onboarding

**Review risk posture** via Security and GDPR

**Align on pricing model** via Pricing

**Define next step** via Demo

## Internal review checklist

---

You can use this directly in your firm's internal decision process:

- Current state: Which workflows need to improve first?
- Risk boundaries: Which services must stay uninterrupted during migration?
- Ownership: Who signs off on compliance, process, and final decision?
- Timeline: When should transition planning start?

## Need additional materials?

---

If your internal approval process requires specific formats, contact us via [Contact](#). We can provide targeted materials for your review workflow.
